# Serbia Convention Bureau

## About us

Established in 2007, as a department of the National Tourism Organisation of Serbia, our mission is to develop, market and position Serbia as the leading and fastest-growing meetings and events destination in Southeast Europe. We are a member of the International Congress and Convention Association (ICCA), as part of its Central European Chapter and Destination Marketing Sector. In the annual ICCA Country and City Rankings, Serbia and its capital city Belgrade are regularly placed among the top 50 meeting destinations in the world.

## Partnership Program

Serbia Convention Bureau aims to implement Partnership Program together with representatives of meetings industry, which enables formal relations in the process of defining meetings and events offer of Serbia and coordinated approach to the international market. By formalization of partnership relationship, Serbia Convention Bureau wishes to gather convention industry so the following goals could be achieved: Status of the convention industry; Defining the offer; Communication; Education; Improvement of sales; Economy of scale and Positioning.

Through its Partnership Program, Serbia Convention Bureau has created a strong network of meetings industry partners – hotels, conference venues, DMC and PCO agencies and other related service providers. All partners have passed strict qualification criteria in order for Program to guarantee service excellence for international clients and delegates. One of the key criteria is experience in dealing with international and European association congresses, corporate events and corporate incentives. All Partners are implementing international standards and working according to the Serbian applicable laws and regulations.

## Association Program and Ambassador Program

The Association Program is an initiative of the Serbia Convention Bureau to develop partnership relations between national associations and the events industry, and to prepare an organized approach to the international convention market. The program is oriented towards Serbia's associations, societies and institutions capable to attract international conventions and business events that promote Serbian innovation and expertise to the global business and professional community. The core message is 'Now is the right time to consider hosting an international convention here in Serbia'. As a result, Ambassador Program is a platform that honours those professionals whose dedication and work have decisively contributed to Serbia's reputation in the field of international meetings.

# How to get to Serbia? / Air Serbia

## By Air

Serbia has three international airports with scheduled flights, the main one being Belgrade's Nikola Tesla International Airport (BEG) with an ideal location at the crossroads of major air routes with 26 airlines connecting the capital of Serbia with more than 80 destinations throughout Europe, Middle East, North Africa and the USA in scheduled, charter and cargo air traffic. The other two airports include Airport Constantin the Great in Niš (INI) and Airport Morava near Kraljevo (KVO).

## By Bus

E-65, E-70, E-75 and E-80 international routes connect most of the major towns in Serbia. Belgrade lies along the E-70 and E-75 connecting Western and Northern Europe on one side and Southern and Eastern Europe on the other. Serbia has a total of 45,419 km of roadways, out of which there are 16,373 km of I and II category state roads, including nearly 927 km of motorways (October 2021).

## By Rail

The capital city, Belgrade, has regular and direct rail connections with capital cities in Central and Eastern Europe. The most important railway network through Serbia is the international Corridor X (E70 and E85), which is 767 km long. The second most important railway network in Serbia is the international Corridor XI, which includes two railway lines. The main line Belgrade – border of Montenegro (E79) is a line with a total length of 287.4 kilometres. The main line Belgrade – Vršac – Romanian border (E66) has a total length of 104 kilometres.

## Air Serbia – national airline of Serbia

Air Serbia is the national airline of Serbia with the strategic goal to become the leading airline in the region and to resume its place among the leading air carriers in the world. It serves over 40 destinations directly from its hub at Belgrade's Nikola Tesla International Airport. Besides Europe, Air Serbia also offers international destinations in the Middle East and long-haul flight to the United States. Air Serbia is a key part of the nation's aviation infrastructure and plays a fundamental role in the development of Serbia's travel and tourism industry and the country's economic growth.

When meeting in Serbia, Air Serbia as a national carrier is able to offer attendees and accompanying persons a travel experience with style and comfort, both in economy and business class, with various options for choosing the best route and enjoying multiple advantages. The Air Serbia Premium lounge at Belgrade's Nikola Tesla International Airport is divided into several different areas, each equipped with a range of benefits to provide maximum enjoyment. Centrally located bar offers an exceptional selection of food and drinks.

## A Better Insight

### Where East Meets West

For centuries, Serbia has been crossroads where various civilizations met. Long time ago, it was the meeting point of the Byzantine and Roman empires. Modern Serbia has developed under the influences of the Ottoman Empire, but also under the Austrian heritage, since its northern parts used to belong to the Habsburg monarchy.

### Multi-ethnic and multicultural

As a result of so many influences throughout its rich history, Serbian culture is an amazing fusion of customs, flavours and multiculturalism in architecture, gastronomy, music, and the language itself.

### Famous Serbs

#### NIKOLA TESLA

One of the greatest minds of all time. Modern wireless communications and electric power (AC) systems are based on Tesla's patents and theoretical work.

#### MILUTIN MILANKOVIĆ

The astrophysicist best known for having developed the Ice Age theory, one of the most important theories on the Earth's orbit and long-term climate change.

#### MIHAJLO PUPIN

A physicist and chemist - his research contributed to extending the range of long-distance telephone communication by placing loading coils

of wire at predetermined intervals along a transmitting wire.

#### MILEVA MARIĆ EINSTEIN

One of the first women to study physics and mathematics in Europe. She was also Albert Einstein's first wife.

#### NOVAK ĐOKOVIĆ

Đoković is one of the greatest men's tennis players in history with record seven year-end No. 1 finishes, most weeks at No. 1 position, record-sharing 20 Grand Slam titles...

## Serbian way of doing...

### YOU BE MY GUEST!

Your host will be deeply offended if you don't let him pay the full amount of the restaurant bill. Simply, forget about sharing the costs and enjoy the hospitality of your new friends.

### SHAKING HANDS

No matter what the occasion, Serbian people will extend their right hand for a long and firm shake.

### KISSING

You don't get a kiss only when you meet for the first time. Every other time, get ready for as many as three kisses (right-left-right cheek, that's the order), and all that while shaking hands, of course.

### PATRON SAINT'S DAY

Every Serbian Orthodox family has its own Patron Saint and observes it once a year when family and close friends get together to mark the special day and evoke memories of their ancestors.

### ORTHODOX CHRISTMAS

Orthodox Serbs observe the Julian calendar and celebrate Christmas on the 7<sup>th</sup> January. Christmas day is

preceded by a 6-week Lent, followed by festive and colourful celebrations.

### MEETING OUT

Serbian people like going out with friends, colleagues, business partners. They enjoy sipping their drinks while discussing important and less important stuff.

### GODFATHER

The Godfather / Godmother is the most respected figure in a family. There is a saying that "the Godfather isn't a button" so that it can be lost. It means that the relations with the Godfather are very strong. It usually goes as the Godfather says.

## Fresh, yummy, hearty...

### Must-try

Your stomach will be happy – get ready for an exquisite Serbian gastronomic experience. Don't forget to try the traditional and ethno "must-try":

- ✓ **KAJMAK** (very rich flavoured cheese spread served on hot pita bread)
- ✓ **AJVAR** (relish made of red pepper and spices)
- ✓ **PROJA** (corn wheat pie)
- ✓ **GIBANICA** (cheese pie)
- ✓ **PREBRANAC** (oven baked beans)
- ✓ **PIHTIJE** (aspic-like dish made from a meat stock or consommé)
- ✓ **ČESNICA** (traditional Christmas bread baked with a coin inside)
- ✓ **SLIVOVITZ** – Serbia's most popular national drink (distilled fermented plum juice)

### Fusion

Unique mix of Central European, Mediterranean, and Middle Eastern flavours.

### Organic

Pristine nature and fertile land produce a healthy selection of traditional and organic cuisine, and fine wine. The last resort of healthy, organic food – the genuine taste and flavours of food, fruit and vegetables. Serbia is one of the world's greatest exporters of raspberries and other berry fruit (strawberries, blueberries, and blackberries), plums, cherries, sour cherries.

## How to get to Belgrade?

### By Air

More than 25 international airline companies operate in Serbia. It is possible to book a direct flight to/from more than 80 destinations in Europe, Middle East, North Africa and the USA.

Belgrade's Nikola Tesla Airport ([www.beg.aero](http://www.beg.aero)) is a modern airport, conveniently located just 15 minutes from the city centre, and main conference and accommodation facilities.

### By Rail

An extensive rail network, offering day and night service, connects Belgrade to the rest of the country and Europe.

### By Bus

Belgrade lies at the intersection of the E-70 and E-75 European highways.

Regular bus coach routes connect Belgrade to the rest of Serbia. International bus coach routes service neighbouring countries as well as most European countries.

### By Ferry

Belgrade lies on the Danube and Sava rivers. The Port of Belgrade, on the banks of the Danube, is a major transit, loading and cargo centre in central Europe. The passenger dock on the Sava River is well- equipped, providing a range of transit facilities.

### Look in the Future

Centrally located in the high-rise business district of New Belgrade just five minutes from the city centre and 15 minutes from the Belgrade Airport. There are several hotels nearby including three premium hotels in the immediate precinct – Hyatt Regency, IN Hotel and Crowne Plaza, the latter being conveniently connected to the Sava Center via closed hallway.

In 2021 Sava Center was acquired by Delta Holding, privately owned Serbian company with a vast regional portfolio in real estate and hospitality business. The conference centre is currently under complete reconstruction and is due to be fully renovated by the end of 2023. The entire value of the investment is 80 million euros.

With a new business concept, enlarged and enhanced space, it will be able to meet all the requirements in accordance with the latest trends in meetings industry. New features will include a hybrid studio, two exclusive restaurants, rooftop garden, cafés, rent a car, retail area, among other. Apart from the refurbished interior, the focal point of the reconstruction will be improvements in infrastructure and use of cutting-edge technology, by far exceeding the regional competition in this respect.

 www.belexpocentar.rs

A passage connects the Belexpocentar to the Holiday Inn hotel that has 7 conference rooms and 139 accommodation units. Thanks to innovative column-free solution and modern equipment the Belexpocentar can offer virtually unlimited event possibilities. It can adapt to all your needs and provide you with the facilities and services unlike any other. Partition walls respond to the demands of modern organizers and permit you to adapt the hall shape according to your requirements. High ceilings allow you to hang banners and lights and underground utilities channels provide technical connections at any part of the hall. All good reasons for your creative team to give you the event you have always dreamed of.

<b>Meetings &amp; Events</b>	<b>1</b> MEETING ROOMS	<b>3,000</b> LARGEST PLENARY	<b>2,500 m<sup>2</sup></b> EXHIBITION SPACE
------------------------------	---------------------------	---------------------------------	--

Exhibition floor size of 2,500 m<sup>2</sup> can easily be adapted for small or large-scale conferences, congresses and seminars to host up to 3,000 delegates. The flexibility of the space allows for plenary sessions to run alongside the breakout sessions and independent workshops. The latest technology with 24h cooling/heating system creates the environment you need. The architectural solution makes large vehicles' access very convenient and considerably shorter the break up/down period.

# Gastronomy / Entertainment / Shopping

## GASTRONOMY

**ONE THING IS FOR SURE** – you won't stay hungry in Belgrade. Rather, you will be able to enjoy different tastes and cuisines.

Traditional Serbian food and home-made brandy (rakia) and wines can be consumed at the typical village house style restaurants and taverns. Many of them you will find in the bohemian Skadarlija district, but there are also other fine places scattered all over the city. If you are into river fish specialties, check out restaurants located in Zemun, on the right bank of the Danube River.

More into fancy, fusion restaurants where you want to eat well, but also want to see and to be seen? You will

find such places mostly on the banks of the rivers, in the downtown and around Kalemegdan Park. Excellent restaurants in some of the Belgrade's parks can be a perfect alternative for more serene atmosphere.

The restaurants with the capacities to hold a banquet, suitable for bigger groups, different types of celebrations, and famous for good and hearty meals: Devetka (The Number Nine), Jezero Ada (Lake Ada) Restaurant, the Kalemegdan Terrace, Kovač, Franš, Madera. Other specialized restaurants offer Italian Chinese, Mexican, Thai, Indian, Japanese, Lebanese, Latin American and Mediterranean cuisine.

## ENTERTAINMENT

### CONCERTS

Belgrade is the capital in every sense of the word. In the cultural sense, Belgrade has hosted concerts of the leading world artists and performers of the classical music, pop and rock scene. The concert venues of the Štark Arena, Sava Centar, the Kolarac Concert Hall, the Student Cultural Centre (SKC) and Belgrade Philharmonic are just some of the venues you need to check for new shows.

### ART GALLERIES, MUSEUMS, THEATRES

Belgrade cultural scene is so rich and packed that it is difficult to make a choice among a variety of art galleries (some of them right in the

Knez Mihailova Street), museums, etc. Museum of Contemporary Arts, Ethnographic Museum (one of the oldest museums in the Region), Museum of Nikola Tesla (famous scientist of Serbian origin), National Opera and Theatre at the Republic Square, or Madlenianum Theatre in Zemun.

### CLUBBING

Belgrade is Europe's Capital of Cool (according to the prestigious UK Sunday Times magazine). It is famous for its vibrant night life. No matter what day of the week, Belgrade never sleeps, offering limitless options for entertainment. On the list of a must see places is the entire Strahinjića Bana Street

with charming restaurants and night spots which add to Belgrade's energetic urban vibe.

A lot of floating river clubs, both on Sava and the Danube, make Belgrade nightlife

some of the most exuberant in Europe. The Savamala district has gained a prominent place in the recent years regarding nightlife.

## SHOPPING

**BELGRADE OFFERS** a variety of shopping opportunities. Large malls are favourite places for shopping and window-shopping. There are many options to choose from, both in downtown and in the wide city centre.

However, if you prefer combining shopping and sightseeing, dining and entertainment, we recommend the Street of Knez Mihailova in the heart of Belgrade, as well as the King Aleksandar Boulevard, the longest street in Belgrade. Did you know that Serbian people are very much into fresh, organic fruit and vegetables? Serbia has been a leading exporter of many domestic grown products

(raspberries, plums). Visit the popular green markets, where apart from fresh fruit, you can buy meat and delicatessen at the butcher's, or the most delicious home-made cheese. Make sure to visit green markets of Zeleni Venac, Kalenić or Bajlonijeva Pijaca (just a block off the bohemian quarter of Skadarlija). Grab a hot bun or burek (cheese pie) at one of the many bakeries, or the grilled burger with chopped onions and hot pepper from one of many grill bars.

# Attractions

## City of Two Rivers

**NOT TOO MANY CITIES** in the world can claim what Belgrade has – two international rivers (the Danube and Sava). It lies on the confluence of those two. These important rivers give Belgrade life and a very special charm. The beautiful promenades with different contents offer various entertainment possibilities. You can rent a bike or rollerblades and start your sightseeing tour on wheels.

With numerous restaurants, cafes and clubs catering to many different tastes and preferences, you can understand why Belgrade is the “New Capital of Cool” (UK Sunday Times). Tens of res-

taurants on the barges line the banks of both rivers. Remember, when you are in Belgrade – there are no limits! You can have fantastic time any day of the week. Belgrade never sleeps! Another way to experience Belgrade from the rivers is to book a cruise – you will be struck by the beauty of charmingly lit city landmarks during the night excursions.

## Savamala

**ONCE IT WAS THE FIRST** neighbourhood built outside the fortress walls, whereas today Savamala is the alternative, urban centre of Belgrade. Throughout its history, it was known as an elite part of town, with craft workshops, rich stores and wealthy people living there. Nowadays, that old spirit is back through art. Old buildings, houses and warehouses are now a sort of an artistic realm for modern young generation, bringing up the spirit of this historical part of Belgrade and turning it into a new cultural and urban industrial design district.

The KC Grad is another place where exhibitions of modern art and conferences, debates, promotions and other activities are organised. Past, present and future come together in one of the most beautiful Belgrade buildings, newly renovated to host the presentation of The Belgrade Waterfront project, which is due to transform this neighbourhood into the new 21st century downtown.

## The Vibrant Downtown

**BELGRADE IS PULSATING** with life – no matter if you are here for business or pleasure, you will be amazed with the positive energy this city radiates. To find the street of Knez Mihailova you won't need a map – all the roads simply lead to the famous street. It is the main artery of Belgrade, and it stretches all the way from Terazije Square to the Belgrade fortress within Kalemegdan Park. It is a pedestrian shopping zone where you will find stores of the world's leading brands, art galleries, coffee shops, restaurants, souvenir stalls, and bookstores, and everything is open till late night hours. Be prepared to make a stop every now and then to applaud the street performers and entertainers of various kinds.

Sightseeing can be exhausting, so you might consider having a break to try a delicious cake in one of the pastry shops at Republic Square from where you will enjoy a nice view on this famous rendezvous point in the middle of which stands the monument of Prince Mihailo Obrenović. Stop by the National Theatre building where you might book a ticket for the opera or theatrical performance and see what's on at the National Museum. Do not miss Kosančićev Venac, the oldest part of Belgrade outside the Belgrade Fortress. If you haven't found the romance yet, you will find it here. Check out why!

## Bohemian Skadarlija

**LOCATED IN THE HEART** of Belgrade, Skadarlija is the place to experience true Bohemian spirit of the 19<sup>th</sup> century, where local people and many great figures of the local cultural scene of that period used to gather here for drinks, chat, and even poets wrote down their thoughts and verses. Nowadays, nothing has changed – it still has that warm and vigorous charm.

The restaurants are designed in traditional style, offering national cuisine and all of them are well known for tasteful Serbian dishes and live music performances. In the meantime, some restaurants went modern and are now offering international dishes as well, but the atmosphere remains pleasantly unchanged.

## Mysteries of Kalemegdan

**COUNT ON NEEDING** at least several hours to spare in order to maximize your experience of the Kalemegdan complex, which is placed on the list of the Monuments of Culture of Exceptional Importance. It represents the oldest part of Belgrade which dates back to the first century AD. You will enjoy the ambiance of the old Fortress. Touch a stone, a brick – you'll touch thousands of years of history, life stories, plots, and mysteries. Perhaps one of the greatest mysteries lies hidden within the Roman Well (Rimski Bunar). Unleash the Sherlock Holms within you! You will recharge your batteries in the peace and quietness of the beautiful park, with gardens and trees making fantastic shade during the summer heat. Hop on a tourist train

to make the most of your sightseeing experience. Take a break at one of the restaurants or coffee shops for refreshment, but above all – for the breath-taking view over the rivers, the confluence, and the statue of Victor – the protector of Belgrade, one of the most prominent city landmarks, the artwork of Ivan Meštrović. It is not without a cause that during the Ottoman Empire rule, the Turks used to call the Kalemegdan 'Ficir bair' which literally means "the Hill for Thinking". There is fun for animal lovers too, who should not miss the Belgrade Zoo, located in the lower part of the Kalemegdan, covering the area of 7 hectares with 2,000 animals of 270 species.

## Ada Ciganlija Peninsula

**THIS LEISURE PARADISE** is locked between the Sava River and its artificial homonymous lake, at just a few kilometres away from the city centre. According to the virtual Tourist Survey, it has been ranked 3<sup>rd</sup> on the list of world city destinations. Both peninsula and the lake are used for recreation and sports offering more than 50 sport terrains for different disciplines. Biking or roller skating on the superb trails around the lake will be a memorable experience, while golf lovers will enjoy a 35 hectares course with 180 meters shooting range.

For team building activities consider foam football, trim trails with very versatile configuration, or simply barbecuing in the beautiful ambiance of the park. Ada safari, water skiing, adventure park, bungee

jumping, and free climbing will attract the adrenaline junkies.

Ada Resort has as many as 70 different restaurants and cafés open throughout the year. Many of them operate also as night clubs with live music, an excellent choice for relaxation after a long business day. The newly refurbished Jezero restaurant situated on the left bank is a fantastic choice if you wish to plan an event for as many as 1,000 people.

If you fancy a different kind of landscape, visit beautiful mountain Avala, just 30 km from Belgrade and enjoy picnic, wonderful scenery, see the Monument to the Unknown Hero from World War One, or go up the Avala Tower to visit indulge in the amazing view of Belgrade and parts of Central Serbia.

## Serbian Spirituality and Orthodoxy

**TO VISIT SERBIA** and not to visit at least some of Serbian Orthodox churches, would mean missing a chance to get to know Serbian people and Serbian tradition.

The Temple of Saint Sava (Hram Svetog Save) - dominates Belgrade cityscape and presents one of the largest Orthodox churches in the world. It is located just above the vibrant Slavija square. This remarkable domed building with its white marble and granite facade is dedicated to the Saint Sava, founder of the Serbian Orthodox Church.

Ružica Church – built in stone, as a part of the Kalemegdan fortress,

the first Orthodox church in Belgrade and one of the 10 most unique churches in the world thanks to its 'trench art'.

St. Michael the Archangel Church (Saborna crkva) – built in 1840 in the style of classicism with late baroque elements. The gold-plated carved iconostasis is a masterpiece in the rich decoration of the interior.

St. Mark's Church (Crkva Svetog Marka) - located in the centre of Belgrade, in the tranquillity of the beautiful Park of Tašmajdan. It was built from 1931 to 1940 in the Serbian-Byzantine style.

## Zemun – Roman Taurunum

**DURING THE ROMAN TIMES** it used to be called Taurunum; now it is a part of Belgrade and lies on the right bank of the Danube River. The hill of Gardoš is one of the three hills of Zemun. Its narrow cobbled streets will take you to some very cosy café restaurants with amazing views on the Danube River. The Tower of Gardoš was built in 1896 and is a place to take a break for a memorable snapshot. During the summer months the plateau of the Tower becomes the stage for numerous cultural performances. Once in Zemun, book a ticket for the Madlenianum Opera and Theatre. You can also consider holding an event in one of the meeting rooms equipped with state-

of-the-art audio-visual components. The Danube River has always been associated with Zemun. The old settlers usually have a fishing boat and enjoy maintaining it while telling fisherman stories. You will be delighted by the city centre and its pedestrian zone packed with cafés and cosy restaurants. Get some rest in the Zemun Park, or take a stroll along the Danube promenade, which will take you all the way to the confluence of the two rivers. The numerous restaurants are all lined up along the quay. You will have plenty of possibilities for entertainment, dining and getting all the positive energy through meeting people who are always ready to talk and exchange stories.

## GASTRONOMY

**WHEN IN NOVI SAD** you can try different restaurants depending on your mood, preferences, as well as a desire to try something unique and typical. To visit Novi Sad and not to have gastronomic experience in one of the rural ethno-ambient houses would be a great mistake.

Check out the restaurants in the centre of Novi Sad, where you will enjoy the discreet music of tamburitza orchestra, while dining on the succulent chicken kebabs. Finish your meal with small glass of Vojvodina's famous honey brandy aperitif. You will be spoilt for traditional specialties and music of Vojvodina. Superb

gastronomic experience awaits you on the banks of the Danube River as well.

Why not trying something unique and typical from Vojvodina? The czardas and farmsteads (salashi) in Novi Sad and the surroundings are where you will learn something new about the area and enjoy good food and ambiance.

## ENTERTAINMENT / CLUBBING

### DANUBE SIGHTSEEING

Be sure to book a tour on a boat restaurant for a unique cruising experience along the Danube River.

### NIGHT CLUBS AND BARS

Those who like clubbing will have a terrific time in the Petrovaradin Fortress, where you can choose from a variety of bars and clubs. There are places for regular clubbers where one will enjoy unforgettable DJ concerts and theme parties in the authentic space of the Fortress.

Other trendy places include some of the most elegant discotheques in Novi

Sad. Downtown is always in – the street of Laze Telečkog in the downtown pedestrian zone is packed with cafe's, bars, and restaurants. There is even an authentic old tram café – named after the first tram of Novi Sad, while some of the places are the perfect choice for jazz and blues fans.

You can also enjoy large clubs with modern décor or others with laid back atmosphere and excellent performers. In one of the city's most beautiful passages, is the first restaurant in Novi Sad. Through time, it has kept its authenticity and tradition.

## SHOPPING

**DUNAVSKA AND ZMAJ JOVINA STREETS** both in the centre of Novi Sad. This is where you can find a variety of open terrace cafés, pastry shops, restaurants, bookstores, and stores. If you are into handmade leather products, we strongly recommend the Manual store.

### LIMAN GREEN MARKET

An urban market place where you can buy fresh and organic fruits and vegetables, dairy products and meat, and will feel the vivid atmosphere of the place.

**MERCATOR, PROMENADA AND BIG** are some of the largest shopping malls in Serbia.

Bazar Shopping Mall. Perfect place to find everything under one roof – great fashion stores, bookstores, cafés, restaurants, fitness centre, hair salons. Open daily, including Sundays.

Novi Sad successfully strives to preserve the old and traditional crafts typical for the area. In more than 60 stores and galleries, mostly scattered around the city centre, you can purchase ceramics (Ras keramika); woven products (Udruženje tkalja); silk and textile paintings (NS Škrinja), or perhaps visit the renowned Atelier Ivković, that can boast several centuries of traditional printing, bookbinding, and leather bindings conservation.

## Enjoy the Danube

**SOMETIMES REFERRED TO** as 'the Blue Highway', the Danube has always been very important to Novi Sad serving as the communication bridge between cultures, bringing trade activities to the area, fishing, as well as tourists craving to experience something new and beautiful. The Danube in Novi Sad offers various types of experiences, each exciting and beautiful on its own.

### STRAND

the most beautiful beach in Novi Sad, packed with people and positive vibrations, especially in the summer months, when you can enjoy swimming and active leisure on the white sandy beach. Never heard of 'head tennis'? Well, this sport discipline is distinctive to Strand, and you should definitely try it out. Or, how does beach volley-

ball tournament sound to you? The options are endless. And when you want to chill out, cafés and restaurants are there for you. These places turn wild at night with live music and entertainment well into the wee hours the next day.

### FISHERMAN ISLAND

a tourist complex in a peaceful area, in close proximity to the city centre, yet far enough to enjoy the Danube River, peace and quietness of the nature. Several restaurants are located on the Island, including the Fisherman Restaurant, with the capacity of up to 500 seats and a garden that can be customized and configured to perfectly meet all your needs such as: wedding receptions, family celebrations, cocktails, and so on. You will be delighted by the river fish specialties.

## The Heart of the City

**AGAIN IT IS ABOUT** the Danube River. This river bears so much importance to the city, that it is no wonder why it is a part of so many toponyms. The street of Dunavska is the pedestrian and shopping district, and the centre of cultural events. You can visit the Museum of Vojvodina and the Historical Museum while strolling down the Street, which finishes with the Danube Park, where you can have a rest away from the humdrum of urban life and truly enjoy nature, the lake and surroundings. The Liberty Square is the main square, where you will feel the vividness of the town. The big statue of Svetozar Miletić, one of

the most prominent Serbian politicians of the 19<sup>th</sup> century, dominates the square, as well as the City Hall built in the Neo-Renaissance style. The biggest gallery in the city is the Gallery of Matica Srpska, the most prominent Serbian cultural institution. Zmaj Jovina is one of the main streets in the Old City. Named after the famous poet Jovan Jovanović Zmaj, it is packed with various cafés and boutiques. Its most important building is at the very end of the street – the Bishop's Palace (Vladičanski Dvor). One of the most popular meeting points is the street of Laze Telečkog packed with restaurants, cafés, and good vibe.

## The Fairy-tale of Petrovaradin

**THE FORTRESS** is located on the right bank of the Danube River. Built between 1692 and 1790, it covers an area of 112 hectares, with 16 km of underground corridors and catacombs. The Fortress is one of the most prominent landmarks of Novi Sad. The location and the breath-taking view are so wonderful that many artists have found their inspiration right here, thus making the Petrovaradin Fortress the ideal place to house numerous art galleries. The Museum of Novi Sad houses one of the largest systems of underground galleries in Europe. The guide will take you through the amazing network of military galleries

– you will be thrilled by the mysterious experience. Don't get confused when you see the Old Clock Tower on the Fortress – its small hand tells the minutes, while the big hand shows the hours – this was done on purpose so that the citizens of Novi Sad and sailors along the Danube could see the time from afar. In the summer time, the Fortress hosts the famous music festival EXIT. Hotel Leopold I, situated in the heart of the Fortress, with a spectacular view over the city, can be a place where a nice meeting can be organized, followed by a memorable dinner.

## All Roads Lead to EXIT

**EXIT REPRESENTS** the biggest music festival in South-East Europe. It is held in the beautiful ambiance of Petrovaradin Fortress, during the first half of July. The city of Novi Sad then becomes the centre of the world. Positive energy, urban vibe and cosmopolitan spirit permeate the city. The Festival attracts visitors from all around the world, who come to enjoy extra quality musical program, top world

performers, fabulous entertainment, and the positive energy of Novi Sad. The four-day program is scattered on as many as 22 stages. It would take 51 days for one person to listen to the whole program. For the ones who truly want to grasp the full essence of the Exit festival, the Exit village offers the camping facilities – terrific environment to hang out with other campers and festival goers.

## Multi-Cultural Spirit

**WHAT IS SO SPECIAL** about Novi Sad is its multiculturalism which is reflected through various spheres of social life, ethnic tolerance, architecture and multi-confessionalism. Serbian Orthodox Church (Saborna crkva) is in close vicinity of the Bishop's Palace. It is the most important Orthodox Church in Novi Sad. The famous Epiphany Cross made of pink marble is the oldest preserved monument of Novi Sad and is kept on the Church Porch. The Name of Mary Church, simply

referred to as the "Cathedral", is located at the Liberty Square. Beautifully decorated in Neo-gothic style, it represents one of the most prominent buildings in the city. The Synagogue was built in 1909; this beautiful building is no longer used for religious ceremonies. Today it is used as the venue for many cultural concerts and events. The building is one of the landmarks of Novi Sad and is considered a monument of great importance.

## The Charm of Sremski Karlovci

**LOCATED ABOUT 15 MINUTES** from Novi Sad, Sremski Karlovci with its predominantly baroque style is the town-museum. Many historical buildings will overwhelm you with their beauty and significance. In 1699 the town hosted the meeting that ended the hostilities between the Ottoman Empire and the European Powers. The Treaty was signed at the Peace Chapel, at the round table – that was the first time that round table was used in international politics. The town of Sremski Karlovci was once the centre of Serbian spirituality and education. The first Serbian (and Slavic) Grammar School was founded

in Sremski Karlovci in 1791. Strolling down the narrow, picturesque streets of the Town, you'll come across the oldest Serbian bookstore and pharmacy. For wine lovers, Bermet, the authentic wine of the area is a must try. Another great place to see is the Beekeeping Museum. When in Sremski Karlovci, you certainly do not want to miss a visit to one of the famous picnic spots – the Stražilovo. The complex is intertwined with trail paths for a superb hiking experience. Climb up the hill and you will see the monument dedicated to Branko Radičević, famous Serbian poet. Have a meal and well deserved rest at the 'Brankov Čardak'.

## Vojvodina Typical

**FARMSTEADS (SALASHI)** located in the vicinity of Novi Sad, they represent country estates from the 18<sup>th</sup> and 19<sup>th</sup> centuries. You can grasp the feeling of village life in Vojvodina, while enjoying excellent and hearty homemade meals, local music and horse rides. We recommend the farmsteads of Čenej or the Begeč farmsteads.

**CZARDA** it has become the true brand of Vojvodina. These unique taverns offer superb food, warm atmosphere, and in most cases accommodation. Usually located in the midst of an oasis of peace and quietness, by the Danube River, czardas are the perfect places to recharge your batteries and fully recuperate.

## The Holy Mountain of Fruška Gora

**JUST 20 KM** from Novi Sad, the National Park of Fruška Gora is the real jewel of Vojvodina. The mountain of Fruška Gora, also known as the Holy Mountain (just like the Holy Mountain of Athos or Sinai), regroups 16 Orthodox monasteries that date back to the 14<sup>th</sup> century. These monasteries have been declared Monuments of Culture of Exceptional Importance in Serbia. Some of them are as old as the 14<sup>th</sup> century. Make sure to visit at least some: Vrdnik, Hopovo, Krušedol, Grgetek, Velika Remeta,

and many others. During your visit, take a moment to contemplate in silence the scent of incense, the solemnity of the place and the beauty of the icons and fresco decorations. The experience will bring you the long-sought inner peace you have been longing. Fruška Gora is also famous for its vineyards and great wines, rare plant and wildlife, nature reserves, and mountain lakes. The places of interest are also the picnic destinations of Iriški Venac and Brankovac.

# Gastronomy / Entertainment / Shopping

## GASTRONOMY

**NIŠ GASTRONOMIC OFFER** is an unusual combination of Serbian traditional dishes and numerous influences, mostly inherited from the East. Top gourmet delicacies that you can try in almost every cafe in Niš, are prepared from fresh ingredients from the immediate surroundings, and that is why you will remember their taste for years.

You need to set aside a little more time to go to the cafe - because of the enjoyment, or because of the series of dishes that will change in front of you at the table. Relax your senses and belts because the Niš gastronomic tour starts with a cold appetizer

called "meze". Meze is an introduction to enjoying the many dishes that will line up in front of you. This rich appetizer is usually accompanied by some of the fruit brandies - quince, plum brandy, apricot or cider brandy. (Source: *Tourism Organisation of Niš*)

## ENTERTAINMENT / CLUBBING

**TODAY, NIŠ IS A HUB FOR CULTURE AND ART LOVERS** and hosts several annual festivals such as Niš Film Festival which celebrates Serbian films and filmmakers. Organised every August, this internationally important film festival has been held for more than 50 years.

The city is also the setting for two music festivals, also during the summer months, the world-famous jazz festival Nišville and the Nisomnina festival.

## SHOPPING

**THOUGH SHOPPING WILL NOT BE** the principal reason for most trips to Niš, you shouldn't have much difficulty finding what you want, be it local art and crafts, a new camera, replacement moisturiser or some tired-looking Yugoslav relics from the country's quite recent past.

Centred around the pedestrianised thoroughfare, there's a good range of high-street outlets and several boutiques. More specialist shops are spread throughout the city. There are some great outdoor markets, worth a trip if only for the experience of wandering through the noisy, vibrant beehive of activity. (Source: *In Your Pocket*)

# Attractions

## National Theatre Niš

IS NOT ONLY A MONUMENTAL BUILDING but also a place where events can happen in the atmosphere of old culture and a stylish and luxury environment. Niš Fortress is place for all kinds of people, cafés and bars, history and culture, sports and leisure. Place where enjoying nature, sports activities and coffee

sipping are placed all at once, so everyone can find something to do by their wishes.

## Čele Kula

**SYMBOL OF SERBIAN INDEPENDENCE** is a historical monument that shouldn't be missed. This terrifying monument was built from the skulls of Serbian warriors after

the battle of Čegar in 1809. In 1948, Skull Tower and the chapel enclosing it were declared Cultural Monuments of Exceptional Importance.

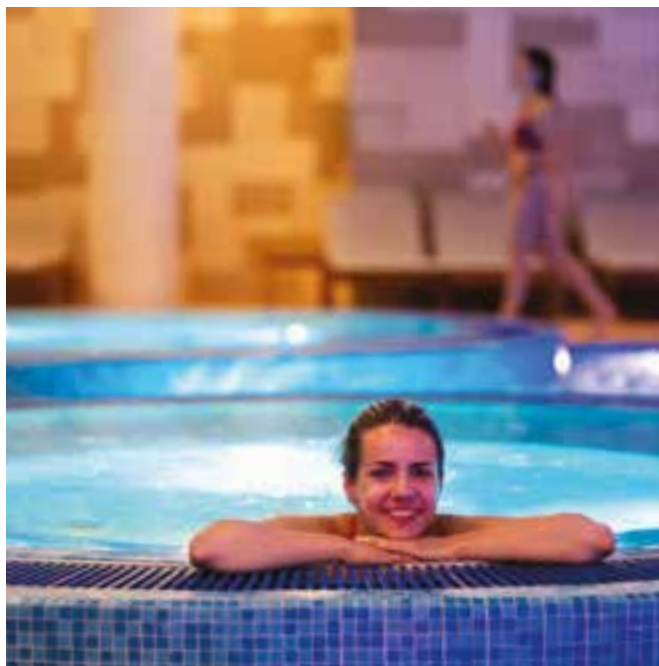

## Mediana

A PLACE WHERE ROMAN EMPEROR CONSTANTINE THE GREAT WAS BORN, is now a tourist attraction and archaeological site with astonishing Roman mosaics built during the roman empire. The residence dates to the reign of Constantine the Great from 306 to

337. Although Roman artifacts can be found scattered all over the area of present-day Niš, Mediana represents the best-preserved part of Roman Naissus. In 1979, Mediana was added to the Archaeological Sites of Exceptional Importance list, protected by the Republic of Serbia.

## Niška Banja

**NIŠKA BANJA** is located 10 km southeast of Niš, on the highway Niš-Sofia. It is protected from the north winds by the Svrlijski mountains and bathed in the sunshine of the east and west sides

throughout the year. Natural, healing factors of Niška Banja are mild and temperate-continental climate, thermo-mineral waters and natural mineral mud.

## Suva Planina

**SUVA PLANINA MOUNTAIN** is located at 20 kilometres from the centre of Niš. This pearl of nature was named Suva (dry) because there is almost no water source at higher

altitudes. Suva planina is a paradise for adventurers, extreme athletes, alpinists, mountaineers and all lovers of untouched nature.

## Niš Fortress

**THE HISTORY OF THE FORTIFICATIONS** at this place begins in the 1st century AD, when Roman legions paved the way for a new world civilization. Built by the Romans, Byzantines and Serbs, the fortress was demolished and rebuilt several times, to be given its final appearance by the Ottomans in 1730. Niš is one of the few

cities in the world with such a massive fortress in the very centre that has not shifted for two millennia.

## Bubanj Memorial Park

**BUBANJ HILL**, 3 km from the city centre, was the site of mass shootings of prisoners from the Concentration Camp in Niš during World War II. After the liberation, a monument in

the shape of three fists, 13, 14 and 16 meters high, was erected on the execution site, symbolizing a man, a woman and a child, as well as their resistance to crime.

## Čegar Monument

**A MONUMENT IN THE SHAPE OF A TOWER** was erected on the site of the trench of Stevan Sindelić and his soldiers - a symbol of a military fortification (1927). The designer of the monument was a Russian emigrant from Niš, while the bronze bust of Stevan Sindelić, which is in the tower, was made by the Yugoslav sculptor

Slavko Miletić. This monument symbolizes the heroic deed of Duke Sindelić and preserves the memory of the fight for freedom.

# SUBOTICA & PALIĆ

## Gastronomy / Entertainment / Shopping

### GASTRONOMY

**SUBOTICA'S CUISINE** is famous for its diversity and influences from different cultures. Whether you choose a national or international restaurant, czarda style restaurant, or a salash, one thing is for sure – you will truly enjoy the experience.

Make your choice from the rich pallet of restaurants serving national dishes or international cuisine.

If you are a fan of river fish specialties and if you think that you have tried it all, you are wrong. Try the fish stew, or fish paprikash, add some spices for a hot chilly flavour. You will be asking for a second serving, for sure. The

best places to try these specialties are czardas – typical Vojvodina taverns famous for their unique and warm ambience.

Plan to dine on the bank of the Palić Lake where you will enjoy the specialty dishes made from mangulitzza (special pig breed), stew and dumplings, lamb paprikash or oven-baked beans. A mini zoo with the ostrich and emus farm, and the fishpond by the czarda will complement your experience. Czardas located in Palić are specialized in mouth-watering fish specialties.

### ENTERTAINMENT

**YOU WON'T GO WRONG** if you choose a salash or a czarda for a superb dining and entertainment experience. The local music of a tamburitza orchestra will fill you with exaltation and joy. If you are interested into clubbing, you won't be disappointed either. There is a great variety of options depending on your preference in music taste. Check out places in the heart of Subotica; the avant-garde clubs; or others if you are into house beats or café with fabulous panoramic view of Subotica.

Craving for more adrenalin and a fantastic bird's eye view on Lake Palić – check out the different options for

aerial adventures. Cruising on the lake by catamaran is also a good way to relax, enjoy and boost your team spirit. If you like the game of paintball, check for different options.

### SHOPPING

**THE ATRIUM SHOPPING CENTRE** is conveniently linked to the Galleria Conference. It is the perfect place where you will find the fashion boutiques, gift shops, cafés and restaurants – all that to make your shopping experience a fun.

Also, you can attend a concert, a fashion show or an exhibition – often organized at the centre. Stroll down the main pedestrian downtown street, Korzo Street, where you will be able to find many stores. Do not leave Subotica/Palić without buying a souvenir typical of the area – decorative naive art items

and paintings made from straw, cornstalk figures, decorative items of homemade felt, embroidery, ceramics, and pottery. These amazing souvenirs can be purchased at the City souvenir shop, located by the Liberty Square.

# Attractions

## Subotica Art Nouveau

**THIS WILL BE LOVE** at first sight. The moment you approach the city centre, you will be overpowered by the beauty and harmony of Subotica's architecture, colours, shapes and spirit. The predominant architectural style is Art Nouveau with its most prominent building being The City Hall (Gradska kuća), built in 1912. It is the true symbol of Subotica. You do not want to miss climbing 80 meters up the Clock Tower to reach its observation deck for an amazing view of Subotica and its surrounding countryside. The City Hall also houses banks, restaurants, gift shops and the Municipal museum, and is surrounded by large Green (1985) and Blue (2001) fountains, both decorated with famous

Zsolnay ceramics. The Raichle Palace (Rajhlova palata), built in 1904 by architect Ferenc Raichle, is certainly one of the most beautiful buildings in Subotica. Today it houses a Modern Art Gallery that is open to visitors. Korzo Street – this centric street is maybe the most beautiful in the city. This is a pedestrian zone, with plenty of stores, restaurants and bars where you will enjoy picturesque details and friendly atmosphere.

## Multi-Ethnic Spirit

**SUBOTICA IS CHARACTERIZED** by its multi-ethnic spirit where different communities live together in peace and tolerance, respecting each other's heritage, customs and tradition. The presence of different religious buildings speaks in favour of this fact. The Cathedral, built in 1779, in late Baroque style, is dedicated to St. Teresa of Avila, the patron of Subotica. It is commonly referred to

as the Grand Church. The Orthodox Church, built in 1726 on the highest point of the former old town is dedicated to the Holy Ascension of the Lord. The Synagogue was designed by the same architect who designed the City Hall. The building, built in 1902 in Art Nouveau style, enjoys special status, and is listed a cultural monument of great importance.

## Lake Palić Paradise

**JUST 8 KM** from Subotica, Palić deserves its place on a tourist map as it represents one of the most popular destinations in Serbia. At the turn of the 19<sup>th</sup> century, Palić used to be a resort and spa where elite used to converge. It has retained its old charm and today it is a modern resort with luxurious hotels, congress centre, villas, restaurants, night clubs, sport facilities, three beaches, and a zoo among other things. The resort is ideal for unforgettable team building and incentive programs. The lake has nice and cosy beaches along its 17 km long shores, and offers various opportunities for waters sports and fishing. Picturesque villas and boutique hotels have become popular excursion

point for tourists. The main promenade begins at the Water Tower which is one of symbols of the Palić resort (built at the beginning of the 20<sup>th</sup> century as a multi-purpose facility: a water tower, gate of the resort and a tram station). The visitor is then taken to the Grand Terrace, a beautiful Art Nouveau building from the beginning of the 20<sup>th</sup> century when it was used for entertainment and balls. Close by is the Women's Lido, a fairy-tales resembling restaurant with local ethnic details, where you can relax while sipping your favourite drink. The Summer Stage is situated in the heart of the Park. It becomes extremely vivid in the summer months when it hosts the traditional European Film Festival Palić.

## Zoo Palić

**ZOO PALIĆ IS SAID TO BE** one of the most beautiful zoos in this part of Europe. It represents an oasis where you will truly enjoy nature, 270 wood and shrub species and more than 65 animal species. The garden is so neatly arranged that you will enjoy relaxing in the peace of the surroundings. Coffee shops

and a restaurant offer the utmost satisfaction. It is also possible to organize a meeting event at the Zoo building that is fully equipped with audio-visual system to satisfy the most demanding needs.

## Horse Riding Adventures

**KELEBIJA IS THE LARGEST** horse farm in Serbia, close to the town of Subotica. The entire resort has an artificial lake (if you are a fishing fan, you will love this), traditional style houses, hectares of green surfaces and nicely arranged wood lanes. Above all, Kelebija is a horse farm with modern stables, pastures and trails for competition – all this ambience is a paradise for both the visitors and the horses.

The guide will take you for a tour, revealing the history of the Lipizzaner horse breed, and the collection of more than 30 horse carriages. Here you can enjoy horseback riding and a beautiful carriage ride. The farm is the ideal place for a wide range of

team-building activities. If you happen to visit Kelebija in winter months, you should not miss the sledge ride. The farm is the ideal place for a wide range of team-building activities. With its meeting capacities, the farm is a great option to hold seminars or similar type events. Vila Majur, with its facilities and pleasant atmosphere is a perfect choice for your event.

Furioso Horse Centre is where you will get 'furious' and raise your adrenalin level by riding a horse with your colleagues from work! The centre offers a variety of possibilities for teambuilding, incentives as well as creative workshops. Organize a meeting in the beautiful ambience of a thatched conference hall.

## Care for Some Wine?

**THE REGION OF SUBOTICA** lies on sand, as the remnant of the pre-historic Pannonian Sea. This type of terrain coupled with mild climate has contributed to the specific quality of wines called 'the sand wines'. The wines of Subotica are among the most famous in the region. The traditionally cultivated autochthonous sorts are

Kadarka and Kovidinka. Other sorts of white and red wines are also successfully produced, especially the White Burgundy, Riesling, Merlot, Red Burgundy and Cabernet. Do not miss to visit some of the wineries for wine tasting and purchasing.

## Enjoy the Farmsteads

**THESE FARMS ARE TYPICAL** of the Vojvodina. They are usually located in the beautiful meadows of Vojvodina, away from the village, and consist of a house, and several maintenance buildings, and a horse stable. Today, these farms are real resorts and they have been adapted with modern facilities like swimming pools, sports terrains, and fishing ponds to accommodate visitors. In some estates though, the families still live the lives of their ancestors. Those that are adapted to cater to tourists offer traditional food and vines, accompanied by superb hospitality. On the outskirts of Palić, there is a salash/farmstead which represents an oasis stretched to 20 hectares of

land; the restaurant offers a variety of homemade specialties (potato pie, chicken stew, salash beans, sheep stew with cabbage, Vojvodina domestic strudel, and many others). You can also witness how locals prepare the dishes, sausages and other specialties. Other salash close to Palić Lake, is surrounded by woods and beautiful plains. It offers authentic ethno ambience, evoking good memories of the old times. The chef will be happy to show you the process of traditional cooking. However, the final touches of the recipes remain a secret! Both of the farmsteads can host more than 400 people each.

## The Sombor Tour

**SOMBOR IS A TOWN** located some 60 km from Subotica. This picturesque town with its baroque style centre is a destination to include on your travel itinerary. Its rich history has left numerous traces in the way Sombor looks today. Some of the oldest higher education institutions are located right here – The Teacher's College founded in 1778 is the oldest college in the Region. For other places of interest, do not miss the National Theatre, the Regional Museum, the Modern Art Gallery, as well as the Town Museum displaying a permanent exhibition of the works of Serbia's famous painter Milan Konjović.

A very special trademark of the town is the fiacre ride (horse carriage) driven by coachmen in special attire, evoking the spirit of older and simpler times. Another trademark of the town is the 'Somborski kotlić' (Sombor fish pot), a gastronomic manifestation held in July by the Saint Trinity Square where more than 300 participants compete in preparing the best fish stew. This event attracts numerous visitors, who come to enjoy the fantastic stew, and the cultural program and traditional music of tamburitza organized for the occasion.

### GASTRONOMY

VARIETY OF RESTAURANTS, ETHNO HOUSES, AND BARS can make evenings fun. There are countless cafés offering world famous coffees or cocktails providing amazing end of the day with colleagues, or a warm up party for a night out at the some of the clubs. Visit to fishponds or wineries in the nearby will certainly add to the gastronomic offer.

### ENTERTAINMENT

FOR HISTORY FANS there is Culture Castle, regional museum or together with your team, join international Carnival, organized in July every year where concerts, street entertainment and dances bring up an amazing experience. It gathers tens of thousands of people from various countries.

### ATTRACTIONS

VRNJAČKA BANJA HAS VARIOUS MINERAL SPRINGS and activities to fulfil free time. Centres for relaxation can provide stress relief therapy or just a cosy afternoon. Vrnjačka Banja has beautiful monumental buildings above the wells where you can refresh your body and mind with mineral water directly from the fount. Since it has been built on a river, this spa has numerous small bridges. One of them is the famous Love Bridge, the first Love Bridge in the World, with padlocks that symbolically represent love.

## GASTRONOMY

**WHEN IN ZLATIBOR**, you have different options to satisfy your taste buds. If you are into contemporary cuisine, you won't make a mistake if you choose any of the fancy restaurants, pizzerias or pancake shops. Definitely you don't want to leave Zlatibor without trying at least some of the typical specialties in ethno restaurants in the old villages of Sirogojno, Mačkat or Zlakusa. The pallet of the specialties you should try is wide, however be sure not to miss the following:

### KAJMAK (KAYMAK)

Fresh and unripened cheese made from unpasteurized, unhomogenized milk. Depending of the length of the fermentation process, it can be very mild to very strong in taste (aged kaymak) and rather yellowish in colour. It is usually served with bread as an appetizer, or with specialties such as a hamburger (pljeskavica sa kajmakom), or with cevapcici (kebabs sausages).

### 'KOMPLET LEPINJA'

Made with special type of bread called somun, served with a scrambled egg and a layer of kaymak, sprinkled with lard after roasting, and baked in the oven for about 10 minutes.

### GIBANICA

Cheese pie made with home-made pastry dough and a very special type of cheese, or aged kaymak. It is usually served with yoghurt, either creamy or very firm.

### PRŠUTA (PROSCIUTTO)

The processing of dry-cured meat in Zlatibor has remained the same throughout the centuries. The specific climate of Zlatibor, the altitude and the humidity are the factors which add to the refined taste of the Zlatibor prosciutto. Thin slices of Zlatibor prosciutto served with kaymak, coupled with a local drink of slivovitz make a perfect hors d'oeuvre.

### KAČAMAK (POLENTA)

Porridge made of white maize flour with an abundance of cheese. It is served with cream or buttermilk.

### HEJLDOPITA (BUCKWHEAT PIE)

Special type of pie made with buckwheat flour, the cereal typical of the Zlatibor region. The pie is made with cheese and served with yoghurt.

## ENTERTAINMENT

**IN ZLATIBOR**, there are two artificial lakes. The larger one on the Crni Rzav River in Ribnica is a real paradise for fishing, while the smaller one in the centre of Zlatibor, in King's Waters, was created for tourists to enjoy in the summer months.

Daily cultural events are organized throughout the summer season. Concerts, festivals, exhibitions, and art colonies represent unique opportunities to get acquainted with Serbian tradition.

Apart from the outdoor fun and recreation, Zlatibor offers a variety of different possibilities for visitors to

enjoy clubs and restaurants. Some of the best restaurants with contemporary cuisine as well as the night clubs are located either on the banks of the lake, or close to the centre.

Zlatibor is famous for its night life. Depending on your preferences and music inclinations, you should check out some of the places in the centre of the mountain resort.

## SHOPPING

**IN THE CENTRE OF ZLATIBOR** you will find different well stocked stores and supermarkets. But, for the unique shopping experience, you simply cannot leave Zlatibor without purchasing some of the items typical of the area.

### SIROGOJNO SWEATERS AND KNITWEAR

These hand-knit garments (sweaters, scarves, gloves, caps – all designed with local motifs) have brought Sirogojno the brand name. The village is now a popular stop on the tourism map. The 'Sirogojno Company' has a permanent exhibition where you can buy nice sweaters as well as organic dry fruit. In Sirogojno you can also

visit the souvenir store. The village also has a small, picturesque green market place.

If staying at Kraljeve Vode (King's Waters) you can go to the market place (open daily) where you will be able to buy nice presents and souvenirs/products:

- ✓ Prosciutto
- ✓ Cheese and kaymak (cheese spread) Herbal teas (Zlatibor is famous for its rich selection of prime herbs and teas)
- ✓ Rakija (home-made brandy)
- ✓ Honey (Zlatibor is famous for its natural, organic honey)

- ✓ Jams and marmalades (home-made, and organic)

When visiting the village of Zlakusa you will be able to choose from a variety

of souvenirs and products that this place is famous for – the traditional art of pottery.

# Attractions

## King's Waters

**THIS IS IN THE HEART** of the Zlatibor District. You won't be wrong if you call it King's Waters (Kraljeve vode) since it used to be called as such after the arrival of Aleksandar Obrenović, the King of Serbia, to Zlatibor in 1893. A fountain had been erected in his honour. Today, King's Waters represents a tourist complex with the largest accommodation capacities in Zlatibor. It houses a variety of hotels, restau-

rants, congress halls and meeting rooms. It has been a popular recreation camp for various sporting groups. There are also numerous opportunities for paragliding, tennis, skiing and swimming.

## The Old Village of Sirogojno

**MAKE SURE TO BOOK** a trip to the nearby picturesque village of Sirogojno which lies at 900 m altitude. This authentic Serbian mountain village has been declared a Cultural Monument of Exceptional Importance in Serbia. It has gained world popularity because of the famous handmade sweaters and knitwear with motifs of the Zlatibor area. Check-out the event calendar to make sure when to participate in some of the traditional crafts workshops (pottery, knitting, wool-processing, blacksmith, cooper, and others). In Sirogojno, you will be able to visit the Open Air Museum – Old Village Sirogojno. This unique museum displays, over an area of 5 hectares, a

series of traditional houses made of wood, including a bakery, a dairy, as well as an inn, where you can try roast lamb, locally prepared beans, and a variety of pies, all served with traditional drinks. In the authentic ambiance of the hall you will be able to organize an event for about 100 people. It is possible to book accommodation in the cottages that have kept the traditional appearance and feel, but that have been adapted to accommodate the needs of a modern visitor.

## Ski Centre Tornik

**IF YOU ARE INTO WINTER SPORTS**, you should not miss the Tornik centre, a modern ski resort with four ski slopes: Tornik slope (1,496 m above sea level), Čigota (1,422 m), Ribnica and Zmajevac. For new beginners and children, the gentle slopes of Obudovica are just fine. Cross-country and biathlon are a real joy, too. The centre is equipped with the artificial snowing system that helps the skiing season run much longer.

The lifts operate throughout the year, so even if you are not a skiing fan, you can take a ride to the peak from where you will be able to see the beautiful landscape of Serbia. Take a deep breath, clear your lungs, and 'seize the day'!

## Wooden Town / Küstendorf

**WOODEN TOWN** is the legacy of the famous movie director Emir Kusturica. While shooting his movie "Life is a Miracle", he could not resist the beauty of the village of Mokra Gora on the hill of Mečavnik. He decided to build his own Wooden Town that consists of wooden cottages designed in the traditional style and structure.

Wooden Town has, like any other town, a library, an artist gallery, a modern cinema with 100 seats, a sports hall, a

national cuisine restaurant, as well as a cake shop where you can taste the home-made sweet pies. The hotel disposes with several meeting rooms and accommodation capacities, thus making it possible to organize an event in this fairy-tale setting. Every year, in the first half of January, the Wooden Town hosts the Küstendorf International Film and Music Festival. Don't get surprised if you bump into Johnny Depp, or some other celebrity.

## Šargan's Eight Train

**ONE OF MOST ATTRACTIVE** tourist railway museums in Europe, this famous railway curves its way through the beautiful, steep landscape and slow uphill, bending around its slopes and forming the shape of number eight. The rail is 15.5 km long and it goes through 20 tunnels. The starting point is at the village of Mokra Gora, where you will be able to see authentic houses as well as two small village churches (the small wooden church of St. Elias The Prophet and the Church of

Holy Ascension built in stone at the end of the 17<sup>th</sup> century). The Šargan's Eight drives along a couple of places and goes through several stops where you can take a break and enjoy the scenery which abounds with thermal and healing springs, the most important being the White Waters spring – Bele Vode. The buildings of the train station have been restored to look exactly as in the year 1925 when the train first started its route.

## Uvac Resort

**THE FAIRY TALE RESORT** of Uvac offers various features. The lake of Uvac is 27 km long and 108 meters deep. The breath-taking panoramic view can be captured from Molitva (Prayer) point. The monastery of Uvac located in the Uvac canyon is a medieval place of worship. It dates back to the 12<sup>th</sup> century. Another symbol of the Uvac resort is the very unique and rare species of vultures – the white headed vulture. This magnificent bird of prey with its 3 meters wingspan was very

close to extinction. The conservation campaign that started some 20 years ago has proved to be very successful. Presently, the Uvac resort is the home to some 300 white headed vultures that are now flying free above the resort, as an unbeatable attraction for tourists and nature enthusiasts.

## Natural phenomena – The Caves

**STOPIĆA CAVE**, located in the village of Rožanstvo, represents one of the most beautiful caves in Serbia. It is 1,691 meters long and possesses beautiful features and cascades in limestone. The entrance is at 711 meters altitude and it is 35 meters wide. The cave consists of two caverns – an underground river course, and a spring cave, connected by the underground flow of the Trnavski Stream.

**POTPEĆKA CAVE**, located near the town of Užice, in the village of Potpeće, with its 50 m high and 12 m wide entrance is one of the largest in the Balkans. Because of the Orthodox symbols engraved in the walls, it is believed that the cave served as a hideout during the Ottoman occupation. After visiting the cave, you can enjoy a nice meal in the nearby ethno village of Zlakusa, also famous for tradition pottery making.

## The National Park of Tara Mountain

**IF YOU ARE STAYING** in Zlatibor, do not miss the opportunity to see the real natural beauty that is Tara Mountain. It is such an enchanting and inspiring sight that it is difficult to describe it in words. Not even the super quality photo camera can capture the charms of this mild mountain. The River Drina flows through the Tara resort, and is said to be one of the cleanest waters in Europe. The canyon of the Drina is the third deepest in the world. It is a fast river, perfect for various water sports

such as white water rafting and kayaking. The famous Drina regatta is held every year in July. Lake Perućac on the Drina River is a true pearl, with 52 km of shoreline. The 13<sup>th</sup> century monastery of Rača is located on the mountain slope, while at its foot flows one of the shortest rivers in Europe – the Vrelo River, also called the 'Year' as it is 365 meters long. You can take a break at the 'Vrelo' restaurant and enjoy the view from the summer terrace.

# Gastronomy / Entertainment / Shopping

## GASTRONOMY

**NO MATTER WHAT** your eating preferences are, you need to try the specialty of Kopaonik, the cutlets made with the herb nettle, mixed with chopped leek, garlic, eggs, and rice – all mixed together, shaped into a cutlet and fried in oil.

Ski lovers have an additional choice to chill out in one of the cosy inns right on the ski slopes while sipping a glass of hot wine or brandy and biting in a warm pita bread spread with the Kopaonik cheese and kajmak – something to die for!

Ethno restaurants are where you can enjoy traditional and authentic Serbian

specialties prepared with organic mostly ingredients. Whether they are a cosy ethno restaurant with traditional Serbian food or ethno style house with open fire in the centre of the restaurant. Some of the cottages are conveniently located on the ski slope. You need to try the beans, cabbage rolls, a variety of pies, grilled veal, and lamb specially prepared under the metal lid, blueberry pies and other cooked dishes. Live acoustic music will provide phenomenal entertainment into the long winter nights.

## ENTERTAINMENT

**WHILE IN KOPAONIK**, you have various entertainment choices, all geared towards an active holiday. Depending on the time of the year, we certainly recommend:

### ACTIVE HOLIDAY

**Hiking tours** – there are several options, ranging from four to seven hours, that will take you through the natural phenomena, archaeological sites and beauty of the Kopaonik National Park. So, put on your hiking gear, get yourself a guide and start an amazing hiking adventure through the beautiful forests, meadows, pastures, and hills of Pančić, Šiljak, Kozja stena and Markova stena (Marko's rock).

**Paragliding school** – this is always attractive and challenging for the ones who want to go beyond the average. The unique relief of Kopaonik offers ideal conditions for paragliding.

**Riding school** – such a beautiful experience to ride a horse and enjoy almost intact sceneries of the National Park of Kopaonik, with the guided assistance of the riding instructor.

**Wine tours** – book a tour to visit the famous Župa of Aleksandrovac, known for quality wines and brandy. Get ready for an amazing experience while enjoying superb wine and scenery.

### Night ski and wild motor sledge rides.

If you happen to visit Kopaonik during the snow season, you should not miss night skiing because you will be amazed by the entire adventure.

**Jeep tours** – take the guided off-road tour over challenging untraveled routes, visiting Kopaonik's heights and the natural beautiful landscape of the National park.

Adventure Park in Kopaonik is a real adrenaline attraction for both children and adults and can be used all year round. It consists of numerous elements and various obstacles.

## SHOPPING

**SUNČANI VRHOVI** ("Sunny peaks") is a small resort village. It is well equipped with stores, small cafés, restaurants, pizzerias, and bars.

Green markets of Kopaonik – you can find all the fine products of Kopaonik, including fresh organic blueberries, jams and marmalade, honey from the Kopaonik pastures, famous wine of Župa Aleksandrovačka, slivovitz brandy (original domestic brandy produced in the villages of Kopaonik), souvenirs, as well as superb quality cheese and cheese spread (kajmak). Purchasing beautiful handicrafts and knitwear made by women from the villages of

Kopaonik qualifies as a memorable experience. The climate around Kopaonik favours the growth of penny buns (*Boletus Edulis*). After truffles, they are the second most sought after fungus in Europe.

Consider shopping in the town of Novi Pazar where you can visit the famous market that offers a variety of products, mostly denim, at very affordable prices. The trip to Novi Pazar is a great opportunity to experience the spirit of the Muslim culture and to visit some of the mosques – the Altun-Alem is the largest mosque in this region in the Balkans and dates back from the 16<sup>th</sup> century.

## Largest ski resort

WITH 200 SUNNY DAYS a year, the mountain of Kopaonik is usually called the Sunny Mountain. It offers various opportunities for both winter and summer activities. Kopaonik offers more than 60 km of Alpine skiing runs, as well as 20 km for Nordic skiing. A real fun for fans is night skiing conveniently organized on the "Malo jezero" run, and the snowboard park which hosts numerous competitions.

The ski centre is well equipped with ski lifts of different kinds, and just in case, artificial snowing systems have been installed. If you are not a skier, but are a nature enthusiast, and regardless of the season, you can hop on the four-seater which will take you for a panoramic sightseeing tour.

## Mystical Evergreen

THE HIGHEST PEAK of Kopaonik is called Pančić peak (2,017 m) in honour of the famous botany scientist in the 19th century, and first president of the Serbian Royal Academy, Josif Pančić. He has made tremendous contribution in the field of botany, and was most inspired by the mountain of Kopaonik where he made some of his most unique plant and tree discoveries. He discovered

the new species of conifer – the Serbia Spruce, later classified as *Picea omorika* (Pančić) Purkyne. To show his great love and affection towards the Serbian people, Josif Pančić had expressed his wish to be buried in Kopaonik. Honouring his request, the Serbian Academy of Science and Art erected the mausoleum of Josif Pančić on the highest peak, now called the Pančić Peak.

## The Heavenly Chairs

JUST BELOW the highest peak of Pančić, the archaeological site of Heavenly chairs (Nebeske stolice) is located at 1,800 m altitude. A real jewel, this is the site where an early Christian basilica from the 5th century AD was discovered. The archaeological works uncovered the mosaic floor with geometrical motifs, typical of the period, while the highlight is definitely the image of the peacock, an early

Christian symbol of resurrection. Further discoveries uncovered older buildings – the Roman settlement from the 3<sup>rd</sup> century, with Roman coins, pieces of the ceramic and glass vessels from the Antique and Early Byzantine period.

## Hot Springs and Spas

THE VALLEYS OF KOPAONIK abound with thermal springs. The water temperature of Jošanička Spa can reach as high as 78 °C. Try to boil an egg, and you will be amazed how quickly you can have your breakfast ready! The Spa has a very long tradition in rheumatic healing; it dates back to the Ottoman times when the hammam was built. Still in use today, you should definitely try it for the utmost joy and relaxation. You can have fabulous entertainment in the aqua park with two small artificial lakes. Take advantage of swimming in thermo-mineral water.

**LUKOVSKA SPA** located in the idyllic valley on the eastern slopes of the Kopaonik Mountain, at the altitude of 681 m above sea level. The spa offers numerous mineral

water springs at varying temperatures. Enjoy the mild climate, and brisk and fresh mountain air.

**THE PROLOM SPA** is located in South Serbia, on the slopes of Radan Mountain. It is primarily known for its natural Prolom water, with medical and healing qualities. No matter whether you are here for a vacation or medical treatment, you will be dazzled by nature.

**KURŠUMLIJSKA SPA** the spa and thermal springs have been around since the Roman times. The remains of the old bath, the tombs, and the silver coins from the 3<sup>rd</sup> century, are all testaments that Romans had used the springs for healing purposes.

## ATTRACTIONS

### The Fortresses

#### MAGLIČ

the medieval fortress close to the town of Raška, on the right bank of Ibar River, is one of the most beautiful and best preserved fortresses in Serbia. Built in the 13<sup>th</sup> century by Serbian King Uroš I, the fortress is a place where various events, take place especially in the summer time.

#### KOZNIK

The fortress with seven towers was built in the 14<sup>th</sup> century. It is located on the slopes of Kopaonik at 921 meters altitude, near the town of Aleksandrovac and is not easy accessible. Tradition says that the building materials were carried by the goats – therefore the name Koznik for the fortress; koza meaning goat. The fortress is well preserved and can be reached if you take a path through the wood up until the old town. If you start at the village of Koznica, it will take you some 45 minutes to get to the old town.

### Monastery Tour

**VISIT SOME** of the most important monasteries of Serbian Orthodoxy and spirituality: Studenica, Žiča, and Gradac.

**STUDENICA MONASTERY** represents the most beautiful architectural monument of the medieval Serbia. The relics of King Stefan, the First-Crowned, are preserved in the monastery as the most sacred treasure. The Monastery is on the UNESCO list of World Heritage sites.

#### ŽIČA MONASTERY

is one of the most outstanding Serbian monasteries. It was built in the early 13<sup>th</sup> century. The Monastery of Žiča is the place where the first Serbian Kings were crowned.

#### GRADAC MONASTERY

was founded by Queen Jelena Anžuska (Helen Anjou), the wife of King Uroš I in the 13<sup>th</sup> century. The predominant architectural influence is gothic. The Monastery keeps the marble sarcophagus where the Queen was buried.

### Devil's Town

**LOCATED SOME 80 KM** from Kopaonik, this place is a definite must see. It is Serbia's natural landmark and Serbia's nominee for the Seven Wonders of Nature. The area features 202 stone formations, described as earth pyramids or towers, some of them being as much as 15 meters high. These rock formations were created by strong erosion of the soil during the intense volcanic

activity millions of years ago. Other phenomena include two springs of extremely acid water and high mineral content, where the level of some elements is 1,000 times higher than in ordinary drinking water. The whole area around Devil's Town is so unrealistic and mystical, all set in an amazing surrounding – you will really feel you are in a different world.

### Hilarious Ibar Rafting

**THE RAPIDS OF IBAR RIVER** are a challenge for the sailing lovers. A must see/do event is the 'Rafting without frontiers' activity which starts in Leposavić, Kosovo and Metohija, and ends up in Raška. The whole event is an outstanding manifestation of positive vibrations, and it finishes with the fabulous, mouth-watering beans stew, followed by a rock concert. The participants will enjoy the unique

natural environment. Another great Ibar rafting event is 'Happy Rafting' and it starts right below the Maglič fortress sometime in July, flows all the way to the town of Kraljevo, for 24 km of a hilarious ride. More than 1,000 boats and several thousands of river enthusiasts participate in this event.
